EXPWAY and Nextreaming join forces to offer a ready-to-market solution for mobile TV
The Partnership combines strengths in DVB-H

Paris, France; Seoul, South Korea; Sept. 13, 2006 – EXPWAY and Nextreaming, respectively leading providers of Electronic Service Guide solutions and embedded multimedia SW solutions, announced today that they integrate and interface their solutions to foster the development of mobile TV applications over DVB-H networks.

Expway's FastESG™ Client software solution will be integrated with NexPlayer™, an embedded application that allows users to watch high quality digital broadcasting on a mobile device. NexPlayer™ includes the most advanced Mobile TV video player capability for embedded devices, FastESG™ brings highest performance and fully featured ESG SW.

The partnership's objective is to create a complete end-to-end platform with a full, standard-based ESG service, enabling smart promotion and distribution of rich content, associated with the finest video quality display over DVB-H (Digital Video Broadcasting – Handheld, a world standard for the transmission of TV programs and digital files over mobile networks).

Said Antoine Weil, EXPWAY's CEO: "We are pleased to join forces with Nextreaming, a leading provider of advanced multimedia embedded SW. Today's announcement is in line with our strategy to offer a ready-to-market end to end solution meeting the handset manufacturers' requirements and enabling interactive content and service offering by the operators."

Said Dr. Il-Taek Lim, NEXTREAMING' s CEO: ""We are providing our customers with various mobile TV solutions, which are ranging from streaming media player to DMB and DVB-H. Our partnership with Expway will enhance our products with first in class SW quality and innovations to make mobile TV successful worldwide "

About EXPWAY

EXPWAY is a leading provider of end-to-end content & service management solutions over mobile broadcast, mobile telecom and Broadband IP networks. EXPWAY solutions include Electronic Service Guide (ESG), Electronic Program Guide (EPG) and Interactive Services
